SXV200 & SXV300 SiriusXM Connect Vehicle Tuner Advanced Feature Compatibility Chart

Advanced Features Highlights

ALERTS/TAGGING

Get alerts when your favorite song, artist or team is playing. Plus, discover new music and tag for purchase with iTunes® radio tagging.

REPLAY & ENHANCED REPLAY

Pause Rewind and Replay up to 60 minutes of the current playing channel. With Enhanced Replay, you can rewind and replay up to 30 minutes when tuning to any SmartFavorite channel on the current preset band.

ALBUM ART & CHANNEL LOGOS

- Display album artwork for most SiriusXM music channels.
- Easily identify SiriusXM channels by their unique channel logos.

SMART FAVORITES

In addition to enhanced Replay, the Smart Favorite channels also allow for the following:

- With the **TuneStart™** feature turned ON, you will hear the beginning of the song when you tune to one of your Favorite channels.
- If you've got more than one Favorites music channel, you've got a lot of choices every time you tune in. Instead of pushing every preset button and hearing the live song, you can simply tap **TuneScan™** to get a short preview of songs that you have missed on each of your Favorite music channels.

FEATURED FAVORITES

SiriusXM has the best programmers in the business who want to help you discover new content. **Featured Favorites** is a group, or multiple groups, of channels selected by our programmers and automatically saved to your radio. They're refreshed periodically, allowing you to continually discover everything SiriusXM has to offer.

FEATURES (SXV300 only)

- **TuneMix™** plays a unique blend of songs from your Favorite music channels from the current SiriusXM Preset Band, allowing you to build a custom channel. You can even skip songs you don't want to hear.
- **SportsFlash™** will notify you when a big play happens during a game with one of your favorite sports teams. Choose to tune in and hear the play unfold like it was live. Continue listening to the game, or you can return to your previous channel.
- Keep moving with **Traffic & Weather Now™**. Access the latest Traffic & Weather report for your favorite market, whenever you want to hear it.

Subscription sold separately by SiriusXM.
